## Director of Industry

ACM Board of Directors

### You will...

- Work directly with various past, current, and future ACM UTD sponsors to organize Industry events by communicating via emails, Zoom calls, phone calls etc.
- Foster and maintain strong relationships with companies and update them on ACM's current mission and situation.
- Design and implement plans and ideas for Industry events based on the interests and availability of students and companies.
- Work closely with the Director of Design, Finance, and Marketing to successfully conduct ACM Industry events.
- Attend ACM Industry events and assist companies towards the beginning of the presentation, during Q&A, and other times as needed.

### You are...

- Passionate about ACM Industry events and organizing successful events.
- An excellent communicator and have good attention to details.
- A team player who can meet and exceed expectations.
- Passionate about implementing ideas to increase student turnout and other ACM goals.

### You'll gain...

- An opportunity to directly connect with recruiters and engineers from various companies.
- A unique experience working alongside diverse teams within ACM and learning how to effectively organize successful events.
- Strong communication and organizational skills from speaking directly to company representatives, and carrying out the steps to hold an Industry event.
